What is the Texas Digital Library?

A consortium of higher education institutions that provides a set of shared digital library and scholarly communication services in support of faculty

Membership

Founding ARL Members:

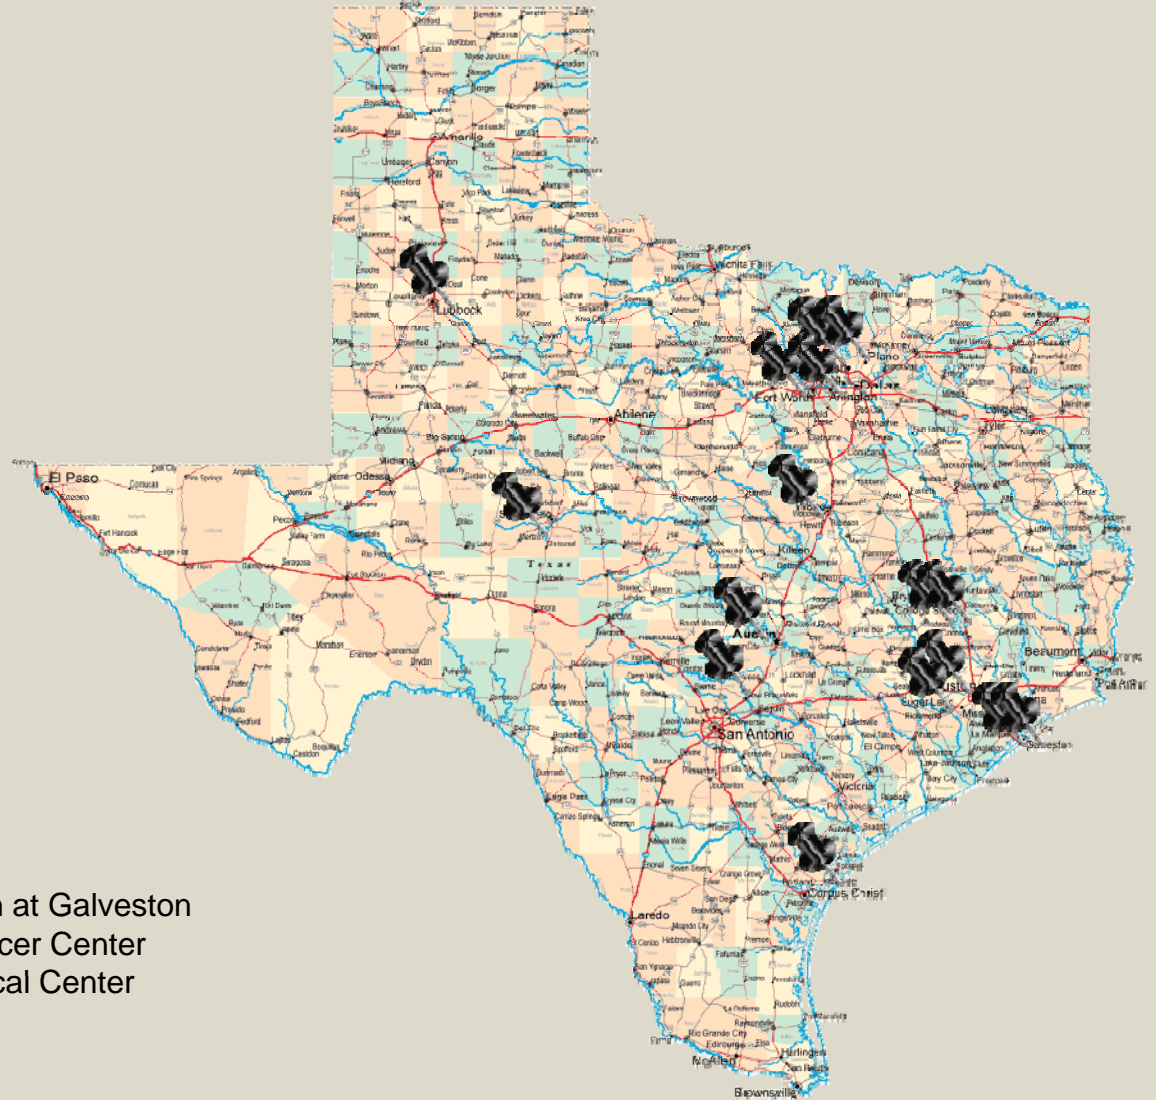

- Texas A&M University
- Texas Tech University
- University of Houston
- University of Texas at Austin

Associate Members:

- Baylor University
- Texas State University
- University of North Texas
- University of Texas at Arlington
- University of Texas at Dallas

Affiliate Members:

- Angelo State University
- Texas A&M Corpus Christi
- Texas A&M Galveston
- Texas A&M Qatar
- University of Texas at Brownsville
- University of Texas Medical Branch at Galveston
- Univ. of Texas M.D. Anderson Cancer Center
- Univ. of Texas Southwestern Medical Center

How do faculty access TDL *content*?

- Like everyone else...
- Through the web
 - Google, Google Scholar
 - Yahoo
 - RSS Feeds, Twitter
- Open Access

How do faculty access TDL *services*?

- They choose their institution from a Where Are You From (WAYF) webpage
- They log-in with their standard university log-in and password from their institution

Where are you from? (Shibboleth)

You are entering a secure service, please select your home institution:

Texas Digital Library Institutions		
 Angelo State University	 Baylor University	 Texas A&M University
 Texas A&M University at Galveston	 Texas Tech University	 University of Houston
 University of North Texas	 University of Texas at Austin	 University of Texas at Dallas
If your home institution is not listed then click here.		

Texas Digital Library Collaborators	
 Brown University	 UT System

How do faculty *request a new service?*

The screenshot shows the Texas Digital Library Service Request System interface. At the top left is the Texas Digital Library logo. Below it is a navigation bar with links: "TDL Home", "Request System", "My Services (Admin)", and "Services Logout". On the left side, there is a "FACULTY SERVICES" menu with sub-links: "Scholarly Blogs", "Research Wikis", "Peer-Reviewed Journals", and "Repositories". The main content area is titled "Service Request System" and "Services". It lists three service categories: "Scholarly Blogs", "Research Project Wikis", and "Peer Reviewed Journals". Each category has a brief description and a link to "Request a new [service]".

Service Request System

Services

Scholarly Blogs
TDL offers [blogging](#) services using the popular [WordPress](#) software. The service offers an easy to use management interface, RSS feeds, user comments, and feedback.
[Request a new scholarly blog](#)

Research Project Wikis
TDL offers [wiki](#) services using the [MediaWiki](#) software, the same software that powers [wikipedia](#). The wiki offers collaborative editing of web-based content through a simple interface.
[Request a research project wiki](#)

Peer Reviewed Journals
TDL offers [journal](#) services using the [Open Journal System](#) software. This service offers a complete peer-review workflow from original author submission through the peer-review processes and to final publication.
[Request a peer reviewed journal](#)

Questions?
If you have any questions about the services offered please [contact our staff](#) who will assist you in selecting and operating these services.

- Service Request System
- Faculty services are requested through an automated system
- Institutional services require contact with the TDL team

Services

- **Faculty Services**
 - Directory
 - Blogs
 - Wikis
 - Journals
- **Institutional Services**
 - Repositories
 - ETD Submission and Mgmt System
- **User Services**
 - Training
 - Helpdesk

Faculty Directory

- Easily identify Faculty/Staff participating in the Texas Digital Library
- Create awareness of community within the users of the TDL

Faculty Bio

Biography

Dr. John J. Leggett is Professor of Computer Science and Library Science, Associate Dean for Digital Initiatives, Director of the Texas A&M University Digital Library, co-Director of the Texas Digital Library, and holder of the Ford Endowed Professorship at Texas A&M University. His research efforts over the last 20 years have been focused on information technologies for scholarly work. He has published extensively in a variety of journals and presented numerous invited talks internationally. He was a founding editor of the open access Journal of Digital Information and previously served as Associate Editor of ACM Transactions on Information Systems. He has been instrumental in forming the Hypertext, Digital Libraries and Open Repositories conference series.

Research Interests

Distributed Repository Architectures, Preservation Networks, Scholarly Communication, Digital Libraries, Collection Understanding, Story Telling Engines, Humanities Informatics, Computational Media, Information Science and Technology, Computer-Supported Collaboration, Human-Computer Interaction, Multimedia and Hypermedia Systems

Recent Publications

- Maslov, A., Mikeal, A. and Leggett, J. "Cooperation or Control? Web 2.0 and the Digital Library". Accepted to appear in The Journal of Digital Information, Vol. 9, No. 28, Fall, 2008.

Communicating research findings in a networked world

Stanford's Center for Internet and Society takes on another fair use case

Posted by Georgia Harper on Feb 8th, 2009

The Stanford Center for Internet and Society runs the famed [Fair Use Project](#), responsible for taking on a number of high-profile cases recently. The Center magnificently prosecuted [Carol Shloss' fight with the James Joyce estate](#) to a beneficial settlement. I always recommend reading its details to worried scholars asking for advice about how to persuade reluctant (ie, risk-averse) publishers to accept a claim of fair use in scholarly commentary and criticism. Now [the Center's Anthony Falzone has turned his attention to another fair use case, one involving the transformation of an online photo of Barack Obama into a series of iconic posters, by artist Shepard Fairey.](#)

There are cases all over the map on the issue of the extent to which an artist can build upon another's work without permission. Historically, both in terms of process and product, art involves much more direct and literal appropriation than literature does, yet the same copyright rules apply to both. The issue will be the degree to which our courts are ready and willing to give fair use sufficient scope to accommodate transformational uses — even commercial ones — in a digital era. As the Washington Post story linked to above recounts,

To create his Obama poster (which he did in less than a week), Fairey grabbed a news photograph of the candidate off the Internet. He sought an Obama that looked presidential. "He is gazing off into the future, saying, 'I can guide you,'" is how Fairey reads the image. The artist then simplified the lines and geometry, employing a red, white and blue patriotic palette (which he plays with by making the white a beige and the blue a pastel shade). He uses a lot of red along with boldface words: PROGRESS or HOPE or CHANGE.

The story goes on to note Fairey's thoroughly non-traditional view of copyright:

Technical Working Group

Meeting Notes 03.26.2009

Attending

- Michael Anderson (Chair)
- Junius Rowland (Project Manager)
- Mark McFarland
- John Leggett
- Scott Phillips
- Carlos Proal (Programming Team Leader)

Working Group Composition

The group decided that the current working group composition was sufficient given its specific task orientation. However, in order to solicit and incorporate broader input into the technical design, the group recommends the establishment of a parallel Technical Advisory Committee (TAC). The composition of that Committee will be determined by Rob Robinson, PI for TxLOR, and should include:

- Representative from the Texas Tech System (Robert Sweet)
- Representative from the Texas State System (James Andrews)
- Representative from the Houston, Lone Star, or Alamo Community College Systems
- Representative from the Texas State Technical College System

Journals

- A complete service covering the workflow of a Journal: author submission, the peer review process, editing, and publishing
- Offers advantages over physical counterparts in terms of cost and speed

What is a Repository?

The Texas A&M Repository is a digital service that collects, preserves, and distributes the scholarly output of the university. The repository facilitates open access scholarly communication while preserving the scholarly legacy of Texas A&M faculty. The repository contains many types of content, including electronic theses and dissertations, faculty papers and books, technical reports, conference proceedings, and digitized maps.

Getting Started with the Repository

Communities in the Repository

Select a community to browse its collections.

- Colleges & Schools**
- Programs, Centers, and Institutes**
- Special Collections**
- State Agencies**
- Texas A&M University Libraries**
- Texas A&M University Press Consortium**

ETD Submission and Management System

- Provides for student submission of digital theses and dissertations
- Provides for workflow and management of ETDs in the Graduate office
- Provides for publishing in the Institutional Repository

Student Submission

Verify Your Information

Please verify all of your personal information. Some of the information has been provided by your school; if this information is in error, you will need to correct it through the appropriate office at your school.

Required fields are indicated with an asterisk.

Your name should appear as it does on your title page. You can use Unicode characters, if your computer supports them.

Personal Information

* **First Name:** John
 Middle Initial: J
 * **Last Name:** Leggett
 Suffix: 
 * **Email:** leggett@library.tamu.edu
 Year of Birth: 

Select the degree and major that are listed on your title page.

Affiliation

* **School:** My School University
 * **Department:** 
 * **Degree:** 

You must enter a permanent, long-term address. If your present address is different, use the Current Address field.

Ji, Yue	Submitted	Unassigned	aaaa	29 Feb 2008
Anuar, Faiz I.	Published	Unassigned	INTERACTIVE STORYTELLING ENGINES	29 Feb 2008
Karsdorp, Unimilcfa	Needs Correct on	Diane Holt	MINDAC	20 Feb 2008

Training

- Provided for a small fee (\$50 per course)
- Hosted by Baylor University
- Train on all services
- Train the trainers
- Member commitments

Planning for a Helpdesk

- Staffed M-F, 8am to 5pm
- To be hosted by Texas Tech University
- Help on all services
- Telephone, email, chat and video conference

Future Services

- Conference Management System (OCS)
- Manuscript Management System (OMS)
- Learning Object Repository (LOR)
- Archival Resources Management System (TARO)
- Preservation Network System (PresNet)

Opportunities for Collaboration

- Sharing of open source systems
 - xmLibris (scanned image viewer)
 - Vireo (ETD system)
- Sharing of lessons learned in building large-scale digital libraries
 - RABiD, TDL
 - TCDL, CUDI
- Collaborating to build digital collections
 - Fondos Antiguos (AMBIFA)
 - Impresos Mexicanos del Siglo XVI (La Fragua, UDLA, Texas A&M)

Opportunities for Collaboration

- Participation in scholarly communication services
 - Shared project wikis
 - Open access journal
 - e.g. biological journal of regional interest
- Joint Research projects
 - PresNet nodes in Mexico
 - Storage and compute clouds

Discussion
